

EAST COBB
CHRISTIAN SCHOOL

2020-2021 School Year COVID-19 Update

In compliance with the guidelines being establishing for re-opening the economy and based on initial planning by school leadership, we are excited to announce that we are working hard to be able to open school on campus at ECCS beginning in August. Our commitment to opening in August is coupled with a commitment to making the campus experience as safe as possible for students and staff.

In light of these commitments, you can be assured we are considering such things as proper distancing and spacing of students and desks in the classroom, implementation and continued reinforcement of rigorous cleaning and hygiene protocols, appropriate monitoring of symptoms and screening of students and staff who come on campus, and thoughtful new policies/practices regarding recess, drop off, pickup, etc. Look for more details to come on what you can expect as our leadership continues to consider all appropriate guidance from local, state and federal health, education and governmental officials.

Thanks to our teachers for working as hard as they did to adjust on the fly and deliver a positive distance learning experience over the final quarter! In addition, we are so thankful for each of our parents and students who somehow made this experience work as well as it did!
